## A Collaborative Community Art Project in Enterprise, AL

### Boll Weevils: From Pests to Ambassadors!

The weevils of Enterprise are no longer crop-wrecking culprits but have transformed into cheerful city ambassadors. These 6-ft, whimsical weevils along Weevil Way echo the message of our iconic Boll Weevil Monument. In 1915, when weevils threatened our community's cotton crops, our resilient town pioneered peanut farming, revitalizing Enterprise and shaping the Wiregrass into a peanut-producing powerhouse.

Weevil Way, a collaborative community art project, celebrates our triumph over adversity. These vibrant weevil statues, each representing local businesses and organizations, can be found throughout the city. We invite you to use this guide and other handy links on weevilway.com to explore all the Weevils and of course capture some 'unbollweevible' photos along the way. Be sure and tag #weevilway and share your pesky photos to our Weevil Way Facebook page!
